

For Immediate Release

Mike Yorgey, TechniCom Audio & Visual, Inc. Integration Division Manager Earns InfoComm International Certified Technology Specialist - Design (CTS-D)

Lehigh Valley – June 22, 2011 – Mike Yorgey, Integration Division Manager at TechniCom, has just earned the title of Certified Technology Specialist - Design (CTS-D), a certification from ANSI accredited InfoComm International. This certification, recognized under ISO 17024 global benchmarking, denotes his expertise in Design, is the highest certification offered by InfoComm International and is often referred to as the "Doctorate" of Audio Visual system design expertise.

Mike attended Full Sail University in Winter Park, FL and graduated in 2005 with an Associate of Science in Recording Arts and a Bachelor of Science in Entertainment Business. After graduation, Mike interned at a well known recording studio while working as a Technician with TechniCom. Coming up through the ranks, Mike has progressed from Technician, to Systems Designer, to his current title, Installation Division Manager. Along the way, he has completed many courses and training seminars, such as: Lutron Advanced Product and Commissioning Training, AMX Programming, Crestron Programming, and various InfoComm courses. Mike was awarded his CTS certification from InfoComm in 2008 and his CTS-D in April 2011.

ABOUT TECHNICOM

TechniCom is committed to creating and nurturing long term relationships between its clients, staff, and the community in which we do business. Consistent quality, the latest technologies, competitive pricing, and client education are all important components of what we do, but what makes TechniCom superior is our **promise** to be the best service provider in the industry.
